Discover our new ceramic design inspired by the epic legend of Acis and Galatea. We present a unique piece that fuses the beauty of calacatta marble with the strength of ceppo di gre, creating a stunning combination evoking the story of love and tragedy between Acis and Galatea.

To honor the memory of Acis, Galatea transformed it into a river of fresh water, symbolizing the eternity of their love. Let our ceramic design bring the magic of this legend to your architecture, adding a touch of elegance and meaning to every space.
